Stephen,

Firstly let me thank you for your recent words of encouragement and wisdom. I have greatly enjoyed all the information that I have received from you to date and it has all been inspiring, informative and useful in furthering my knowledge of trading the markets.

I have found Fibonacci Secrets to be an extremely well presented, easy to understand useful and simple to apply course and it has helped me to supplement my previous studies of Gann and Tubbs enabling me to sharpen up the accuracy of my entry points and to take trades with greater confidence and less risk. It also provided me with excellent alternative methods to calculate profit targets, which I have already used to exit some trades maximizing profits.

Although, I had already been aware of the power of market reversal set-ups and used these previously with some success in my trading I have found that your system of combining it with Fibonacci resistance and support levels as well as a confirming indicator is absolutely fabulous and worth the cost of the course 10 times over on it's own.

Stephen,

Your system is truly incredible.

I have used a lot of systems after so many years of experimenting and losing a lot of money too.

I have bought almost all kinds of predicting tool such as Elliott waves and none of them can really give a precise timing and how to trade. They are mostly giving some sense of direction and possible entry and exit but not as precise as yours.

I am truly grateful to have come across your system, it's truly amazing.

Thanks a lot for sharing your system.....

The movie clips are great....They are worth the course cost alone. Thanks for the extra time you put in for course members.

Hi Stephen,

Please check out CYD on a 3 min. chart. Made \$550.00 today (in 300 shares @ \$22.05) on the retracement back up from the bottom. Perfect Fib. retracement.

Hi Stephen,

I would like to give you all my appreciation on your Fibonacci Secret package. It's the best and I've done paper trading and it's so powerful, completely blows my head off. You are absolutely AMAZING!!!

Stephen,

Thanks for the Fibonacci Secrets. I have been using your systems for a long time, but this one is leading edge. Great job and the video clips are fantastic. It is amazing!!

Your emails are very informative and you do not charge enough for your course. Yesterday, paper trading "NVEC" with your system I would have made \$5.00 per share profit from the low of the day to the high, before the pullback. Should have, could have, would have, but as you say, better to paper trade the system for a month. I may cut that down to two weeks.

**Thank you,  
Bill Valeri**

Thanks Steve, I did take the profits on SWKS at 10.12 and just shorted it again @ 10.68. Have an additional short in @ 10.98. I'll let you know.

Didn't expect any one-on-one feedback from you. Very impressed with your service.

Also, I find the fibonacci points very useful intraday. Been shorting OVTI today (three times) and been picking up .40 cents on each of them using the .38 retracement. Then in my other account I've been going long on OVTI when it retraces .68 and selling those for .60 cents profits. Having lots of fun with this stock (usually has a 2 pt daily range) and using the fibonacci strategy.

Love your course!! Been daytrading for 4 years now and already seeing improved results with your info.

**Best to you!!**

Stephen,

Just wanted to say I'm delighted with your Fib Secrets System. If I continue to improve the way I have been, I'll probably start trading for real week after next. It's an amazing system.

I simulated trades on Thursday and had the best day I've ever had.

I want to thank you for putting the course together. My confidence level has increased 20 fold, and I'm really looking forward to getting good enough to trade with real money.

**Sincerely yours.**

Dear Mr. Pierce,

I wanted to express my thanks for including the interview with Rich Swanwell.

In a way, the last 10 minutes of that interview have been by far the most impressive information I have encountered to date in my search for trading education.

That's especially remarkable because it doesn't have anything to do directly with trading. Rather, it reminded me that trading or more specifically, making money is not an end in and of itself and the importance of seeking life meaning through giving.

Mr. Swannell sets a high standard for us all and I thank him for it as well as you for thoughtfully passing it along.

That piece proves that not all selling information in this arena are hucksters and con artists.

**Sincerely,**

Found your course very short and sweet. Loved the way you cut out the B.S. and had a let's get to work attitude. I immediately improved my sense of the big picture blended with the small. Better trading ahead!!!

You provide an excellent product and it's nice to get your newsletter.

Trading is a solo game and it's good to hear other likeminded voices. That's also why I enjoyed your audio on the CD.

**Thanks

I just want you to know how impressed I am with how much you give for so little. This does not happen in life very often.

**Thanks muchly

I used the (FibonacciSecrets) techniques and entered Dec corn at 216.0 about a week later sold it at 234.0 or something close to that. I made my first successful trade and turned a nice little \$700.00 dollar profit. That just made my day.

So far I'm a believer in the Fibonacci Method.

Thanks for the follow-up customer care, I appreciate it.

Yes! got it! As Stephen says: "It's absolutely Phenominal!"

Tell Stephen, of all the teachers I have had in my life, no one has explained so well how to follow a complicated topic. The whole package is A1 Superb, and if I don't succeed with it now, then I guess I never will.

The live trading Video is sooooooo good and explains the whole system brilliantly, (as we say here in the UK).

You have my continued faith and trust in all you do.

God Bless You All.

Thank You Stephen,

I have really gained a lot out of studying the Fib lessons. You are right it is unbelievable on how accurate they are. I will use them a lot in my trading decisions.

Thanks again for all the information...
